

Property Tax Journal Index
Volume 7, 1988

Author Index

- Burgner, Bobby L., see Nagel.
- Cook, Charles C. Comments on Ward and Steiner, A comparison of feed-back and multivariate nonlinear regression analysis in computer-assisted mass appraisal. December 1988: 351-55.
- Dickerson, F. Gregg. The appraisal of public utilities and railroads for ad valorem taxation: Application of the unit rule. June: 145-55.
- Doane, David P. and Richard A. Southern. Economic life in appraising leased equipment: Role of market value and capitalization of income. December 1988: 297-304.
- Dueker, Kenneth J. and Daniel Kjerne. Implementation paths for the cadastral layer. March: 23-40.
- Eichenbaum, Jack, see O'Connor.
- Faber, Joan S., see Rosen.
- Ferguson, Jerry T. Evaluating the effectiveness of use-value programs. June: 157-65.
- Goodwin, Michael W. and A. James Ifflander. Author's response. June: 207-9.
- Gossett, James F., see Nagel.
- Groebe, Charles L., see Nagel.
- Haurin, Donald R. An empirical analysis of property tax equity. March: 5-18.
- Heaton, Hal. A reply to "Use and misuse of the income approach." June: 199-207.
- Herber, Bernard P. and Paul U. Pawlik. An efficient and fair delinquent real estate tax collection model for local governments. March: 129-44.
- Ifflander, A. James, see Goodwin.
- Jensen, David L. Comments on Haurin, An empirical analysis of property tax equity. March: 19-21.
- Jensen, David L. Comments on Ward and Steiner, A comparison of feed-back and multivariate nonlinear regression analysis in computer-assisted mass appraisal. March: 69-71.
- Jensen, David L. Constrained regression analysis in computer-assisted mass appraisal. December 1988: 305-30.
- Jensen, David L. The use of multiple linear regression in residential land valuation. September: 215-40.
- Joseph, Fran, see Rubin.
- Kjerne, Daniel, see Dueker.
- Kraushaar, James M. and T. Hillman Willis. The effect of reassessment strategies on the accuracy of equalization surveys using a dynamic simulation model. June: 167-80.

- Landretti, Gregory, J. The role of automation in the pursuit of full value: A case study. March: 101-23.
- Müller, Anders. Separate models for computer calculation of land values and building values for 1.3 million residential properties in Denmark. September: 241-61.
- Nagel, Walter, James F. Gossett, Charles L. Groebe, and Bobby L. Burgner. Taxation on and by Indian reservations. December 1988: 331-50.
- Nakajima, Yasunori. Computer applications for tax purposes. September: 263-75.
- O'Connor, Patrick M. Comments on Scheid, Using microcomputers and generalized data base and spreadsheet software in the development of complex market models. March: 83-84.
- O'Connor, Patrick M. and Jack Eichenbaum. Location value response surfaces: The geometry of advanced mass appraisal. September: 277-96.
- Pawlik, Paul U., see Herber.
- Rosen, Arthur R., Joan S. Faber, and Jeffrey Tutnauer. The effect of federal tax reform and accounting changes on the valuation of utilities. June: 181-98.
- Rubin, Marilyn and Fran Joseph. The New York City property tax: A case study in structural change and administrative response. March: 85-100.
- Sauter, Bruce. Comments on Ducker and Kjerne, Implementation paths for the cadastral layer. March: 41-42.
- Scheid, Harald M. Using microcomputers and generalized data base and spreadsheet software in the development of complex market models. March: 73-82.
- Southern, Richard A. see Doane.
- Stein, Kenneth. Comments on Landretti, The role of automation in the pursuit of full value: A case study. March: 125-27.
- Steiner, Lorraine C., see Ward.
- Tutnauer, Jeffrey, see Rosen.
- Ward, Richard D. and Lorraine C. Steiner. A comparison of feedback and multivariate nonlinear regression analysis in computer-assisted mass appraisal. March: 43-67.
- Willis, T. Hillman, see Kraushaar.

Subject Index

Assessment—Computer-Assisted

- Comments on Landretti, The role of automation in the pursuit of full value: A case study. March: 125-27.
- Computer applications for tax purposes. Yasunori Nakajima. September: 263-75.

The effect of reassessment strategies on the accuracy of equalization surveys using a dynamic simulation model. James M. Kraushaar and T. Hillman Willis. June: 167-80.

The role of automation in the pursuit of full value: A case study. Gregory J. Landretti. March: 101-23.

Assessment Levels

Comments on Landretti, The role of automation in the pursuit of full value: A case study. March: 125-27.

The New York City property tax: A case study in structural change and administrative response. Marilyn Rubin and Fran Joseph. March: 85-100.

The role of automation in the pursuit of full value: A case study. Gregory J. Landretti. March: 101-23.

Assessment Performance Measures

The effect of reassessment strategies on the accuracy of equalization surveys using a dynamic simulation model. James M. Kraushaar and T. Hillman Willis. June: 167-80.

Assessment Ratio Studies

Comments on Haurin, An empirical analysis of property tax equity. David L. Jensen. March: 19-21.

An empirical analysis of property tax equity. Donald R. Haurin. March: 5-18.

The New York City property tax: A case study in structural change and administrative response. Marilyn Rubin and Fran Joseph. March: 85-100.

CAMA, see Mass Appraisal, Computer-Assisted

Capitalization Methods

Author's response. Michael W. Goodwin and A. James Ifflander. June: 207-9.

Economic life in appraising leased equipment: Role of market value and capitalization of income. David P. Doane and Richard A. Southern. December 1988: 297-304.

A reply to "Use and misuse of the income approach." Hal Heaton. June: 199-207.

Delinquent Real Estate Taxes

An efficient and fair delinquent real estate tax collection model for local governments. Bernard P. Herber and Paul U. Pawlik. March: 129-44.

Equalization Surveys

The effect of reassessment strategies on the accuracy of equalization surveys using a dynamic simulation model. James M. Kraushaar and T. Hillman Willis. June: 167-80.

Equipment Leasing

Economic life in appraising leased equipment: Role of market value and capitalization of income. David P. Doane and Richard A. Southern. December 1988: 297-304.

Full Value Assessment, see Assessment Levels

Income Approach

Author's response. Michael W. Goodwin and A. James Ifflander. June: 207-9.

A reply to "Use and misuse of the income approach." Hal Heaton. June: 199-207.

Indian Reservations

Taxation on and by Indian reservations. Walter Nagel, James F. Gossett, Charles L. Groebe, and Bobby L. Burgner. December 1988: 331-50.

Land

The use of multiple linear regression in residential land valuation. David L. Jensen. September: 215-40.

Land—Denmark

Separate models for computer calculation of land values and building values for 1.3 million residential properties in Denmark. Anders Müller. September: 241-61.

Land—Japan

Computer applications for tax purposes. Yasunori Nakajima. September: 263-75.

Land Information Systems (LIS)

Comments on Dueker and Kjerne, Implementation paths for the cadastral layer. Bruce Sauter. March: 41-42.

Implementation paths for the cadastral layer. Kenneth J. Dueker and Daniel Kjerne. March: 23-40.

Legal Issues

Economic life in appraising leased equipment: Role of market value and capitalization of income. David P. Doane and Richard A. Southern. December 1988: 297-304.

Taxation on and by Indian reservations. Walter Nagel, James F. Gossett, Charles L. Groebe, and Bobby L. Burgner. December 1988: 331-50.

Location Analysis

Location value response surfaces: The geometry of advanced mass appraisal. Patrick M. O'Connor and Jack Eichenbaum. September: 277-96.

Mapping

Comments on Dueker and Kjerne, Implementation paths for the cadastral layer. Bruce Sauter. March: 41-42.

Implementation paths for the cadastral layer. Kenneth J. Dueker and Daniel Kjerne. March: 23-40.

Market Models

Comments on Scheid, Using microcomputers and generalized data base and spreadsheet software in the development of complex market models. Patrick M. O'Connor. March: 83-84.

Comments on Ward and Steiner, A comparison of feedback and multivariate nonlinear regression analysis in computer-assisted mass appraisal. Charles C. Cook. December 1988: 351-55.

Comments on Ward and Steiner, A comparison of feedback and multivariate nonlinear regression analysis in computer-assisted mass appraisal. David L. Jensen. March 69-71.

A comparison of feedback and multivariate nonlinear regression analysis in computer-assisted mass appraisal. Richard D. Ward and Lorraine C. Steiner. March: 43-67.

Using microcomputers and generalized data base and spreadsheet software in the development of complex market models. Harald M. Scheid. March: 73-82.

Mass Appraisal, Computer-Assisted

- Comments on Landretti, The role of automation in the pursuit of full value: A case study. March: 125-27.
- Comments on Ward and Steiner, A comparison of feedback and multivariate nonlinear regression analysis in computer-assisted mass appraisal. Charles C. Cook. December 1988: 351-55.
- Comments on Ward and Steiner, A comparison of feedback and multivariate nonlinear regression analysis in computer-assisted mass appraisal. David L. Jensen. March: 69-71.
- A comparison of feedback and multivariate nonlinear regression analysis in computer-assisted mass appraisal. Richard D. Ward and Lorraine C. Steiner. March: 43-67.
- Constrained regression analysis in computer-assisted mass appraisal. David L. Jensen. December 1988: 305-30.
- Location value response surfaces: The geometry of advanced mass appraisal. Patrick M. O'Connor and Jack Eichenbaum. September: 277-96.
- The New York City property tax: A case study in structural change and administrative response. Marilyn Rubin and Fran Joseph. March: 85-100.
- The role of automation in the pursuit of full value: A case study. Gregory J. Landretti. March: 101-23.

Multiple Regression Analysis (MRA)

- Constrained regression analysis in computer-assisted mass appraisal. David L. Jensen. December 1988: 305-30.
- The use of multiple linear regression in residential land valuation. David L. Jensen. September: 215-40.

Preferential Assessment

- Evaluating the effectiveness of use-value programs. Jerry T. Ferguson. June: 157-65.

Property Taxes—Collection of

- An efficient and fair delinquent real estate tax collection model for local governments. Bernard P. Herber and Paul U. Pawlik. March: 129-44.

Property Taxes—Reform

- Comments on Landretti, The role of automation in the pursuit of full value: A case study. March: 125-27.

The role of automation in the pursuit of full value: A case study. Gregory J. Landretti. March 101-23.

Public Utilities

The appraisal of public utilities and railroads for ad valorem taxation: Application of the unit rule. F. Gregg Dickerson. June: 145-55.

The effect of federal tax reform and accounting changes on the valuation of utilities. Arthur R. Rosen, Joan S. Faber, and Jeffrey Tutnauer. June: 181-98.

Railroad Properties

The appraisal of public utilities and railroads for ad valorem taxation: Application of the unit rule. F. Gregg Dickerson. June: 145-55.

Real Estate Market Models, see Market Models.

Residential Property

Comments on Haurin, An empirical analysis of property tax equity. David L. Jensen. March: 19-21.

An empirical analysis of property tax equity. Donald R. Haurin. March: 5-18.

Separate models for computer calculation of land values and building values for 1.3 million residential properties in Denmark. Anders Müller. September: 241-61.

Sales Comparison Approach

Constrained regression analysis in computer-assisted mass appraisal. David L. Jensen. December 1988: 305-30.

Economic life in appraising leased equipment: Role of market value and capitalization of income. David P. Doane and Richard A. Southern. December 1988: 297-304.

Software

Comments on Scheid, Using microcomputers and generalized data base and spreadsheet software in the development of complex market models. Patrick M. O'Connor. March: 83-84.

Comments on Ward and Steiner, A comparison of feedback and multivariate nonlinear regression analysis in computer-assisted mass appraisal. Charles C. Cook. December 1988: 351-55.

Comments on Ward and Steiner, A comparison of feedback and multivar-

iate nonlinear regression analysis in computer-assisted mass appraisal. David L. Jensen. March: 69-71.

A comparison of feedback and multivariate nonlinear regression analysis in computer-assisted mass appraisal. Richard D. Ward and Lorraine C. Steiner. March: 43-67.

Using microcomputers and generalized data base and spreadsheet software in the development of complex market models. Harald M. Scheid. March: 73-82.

Tax Reform Act of 1986

The effect of federal tax reform and accounting changes on the valuation of utilities. Arthur R. Rosen, Joan S. Faber, and Jeffrey Tutnauer. June: 181-98.

Time Series Analysis

Evaluating the effectiveness of use-value programs. Jerry T. Ferguson. June: 157-65.

Unit Valuation Rule, see Valuation, Unit.

Use Value Assessment, see Preferential Assessment Valuation

Valuation

The effect of federal tax reform and accounting changes on the valuation of utilities. Arthur R. Rosen, Joan S. Faber, and Jeffrey Tutnauer. June: 181-98.

Economic life in appraising leased equipment: Role of market value and capitalization of income. David P. Doane and Richard A. Southern. December 1988: 297-304.

Valuation, Computer-Assisted

Comments on Scheid, Using microcomputers and generalized data base and spreadsheet software in the development of complex market models. Patrick M. O'Connor. March: 83-84.

Computer applications for tax purposes. Yasunori Nakajima. September: 263-75.

Separate models for computer calculation of land values and building values for 1.3 million residential properties in Denmark. Anders Müller. September: 241-61.

The use of multiple linear regression in residential land valuation. David L. Jensen. September: 215-40.

Using microcomputers and generalized data base and spreadsheet soft-

ware in the development of complex market models. Harald M. Scheid.
March: 73-82.

Valuation-Techniques

Constrained regression analysis in computer-assisted mass appraisal. David
L. Jensen. December 1988: 305-30.

Valuation, Unit

The appraisal of public utilities and railroads for ad valorem taxation:
Application of the unit rule. F. Gregg Dickerson. June: 145-55.
